Messages and Reports

ISI Strategy Discussions in Marrakech

The ISI Executive Committee (EC) has published the [ISI Strategy 2017-2021](#).

During the ISI WSC in Marrakech, three ISI Strategic Priority Open Meetings will take place:

1. How to encourage statistical communication and networking, particularly by exploiting the networking potential of WSCs? - Tuesday 18 July, lunch time.
2. On which issues do we need a stronger public voice and which members wish to work on this? - Wednesday 19 July, lunch time.
3. What should our focus on capacity building be and who should contribute to this? – Also, Wednesday 19 July, lunch time.

The EC invites ISI members and others interested, for an exchange of views on these topics. Keep an eye on the programme for venues.

ISBIS News May 2017

On 7-9 June 2017, ISBIS held a conference at the IBM Research Center in Yorktown Heights, New York, US. There were 136 attendees, mostly from the information technology industries, and ISBIS feels it was a great success. For a long time we have wanted to attract younger colleagues, more diverse members, and data scientists whose skills are driving modern business and industry. This time it worked, and we hope to continue the trend next year at our conference in Athens, Greece, on 4-6 July 2018.

ISLP News June 2017

The Best Cooperative Project Competition (2017) is awarded every two years, in recognition of outstanding, innovative, and influential statistical literacy projects that affect a broad segment of the general public arising from cooperation between different types of institutions, such as national statistical offices, schools, statistical societies, media, libraries, etc. To qualify, projects should be current, make their resources freely available, have statistically sound content and involve cooperation between at least two institutions that would not usually work closely together.
